

## More Applications

## Insect Screen

Insect screens, also known as window screens or fly screens, are screens installed in window and door openings to protect against insects and impurities. Made of stainless steel woven wire mesh, we have both standard insect screen and bullet proof insect screens for your option. Our insect screen not only offers improved visibility with its fine wire diameter, but also provides exceptional durability. We offer insect screens in a variety of shapes, types and functions to satisfy the needs of even the most demanding customers.

### Benefits for sieving

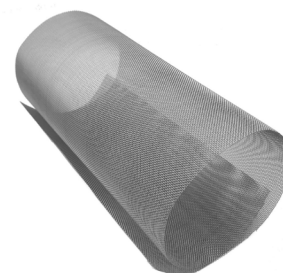

- ✓ Stainless steel won't rust or corrode even working in damp conditions.
- ✓ Offer great outward visibility while keeping insects out.
- ✓ Sturdy construction and long service life, our insect screen won't sag or lose its shape over time.
- ✓ Offer a breath of fresh air without worrying about insects.
- ✓ Easy to clean and maintain for long lifespan.
- ✓ Custom size is available upon request.

### Standard Insect Screen

Made of high quality stainless steel wire by plain woven, standard insect screen provide excellent protection against insects and bugs and contribute to creating a hygienic living environment while allowing for ventilation prevention while offering amazing visibility. It can resist the corrosion, rust, heat, alkaline, so it can be used in the harsh environments for windows, doors and porches screens.

### Specification

### Bullet Proof Insect Screen

Made of high strength stainless steel wire by plain woven, bullet proof insect screen adopts electrostatic powder spraying for surface treatment. As a result, bullet proof insect screens are available in various colors, the most commonly is black. This kind of insect screen provide excellent anti-corrosion, anti-sabotage, anti-shear, anti-theft and bullet proof performance. Besides, it is invisible from outside and provides excellent privacy protection. It is widely used in windows and doors to protect against insects and debris while preventing thieves and intruders.
